13. Borrowings (continued)

On 30 December 2015, the ultimate parent company, Lanitis E.C. Holdings Ltd, together with its subsidiaries, Lanitis Farm Ltd and Lanitis Golf Public Co Ltd, signed an agreement with their key lender to restructure their credit facilities.

The total credit facilities of Lanitis E.C. Holdings Ltd, Lanitis Farm Ltd and Lanitis Golf Public Co Ltd (together the "Obligors") of an amount of €165,8 million are restructured in accordance to two loan agreements. The first loan agreement, the senior term facility, covers credit facilities of an amount of €100 million and the second loan agreement, the subordinated term facility, covers credit facilities of an amount of €65,8 million.

The main source of repayment of both of these loans will be the sale of assets of the Lanitis E.C. Holdings Ltd Group, including real estate assets of the Obligors.

Repayment schedule of senior term facility of €100 million:

- a) Until August 2018 €30 million;
- b) Until December 2020 €40 million;
- c) Until December 2022 €30 million plus all the interest accrued up to that date.

Repayment schedule of subordinated term facility of €65,8 million:

- a) Until December 2023 €10 million;
- b) Until December 2024 €20 million;
- c) Until December 2025 €36 million. From 31 December 2025, the repayment of the accrued interest will be made through the 50% of the proceeds from the sale of assets of the Obligors and the Group and will have no pre-determined repayment date.

The above credit facilities are secured through corporate guarantees, pledges and mortgages of assets and floating charges over the net assets of the Obligors.

The bank loan of the Company is part of the senior term facility referred to above. The management expects to repay the Company's bank loan with the last installments of the senior term facility due until December 2022, since the credit facilities of other obligors are more significant in value for the Lanitis E.C. Holdings Ltd Group.

The weighted average effective interest rates at the reporting date were as follows:

16. Operating Environment of the Company

During the last years, the Cyprus economy has been adversely affected by the crisis in the Cyprus banking system and the inability of the Republic of Cyprus to secure financing from international markets. As a result, the Republic of Cyprus entered into negotiations with the European Commission, the European Central Bank and the International Monetary Fund (the "Troika"), for financial support of € 10 billion, which resulted into an agreement and the Eurogroup decision of 25 March 2013. The decision included the restructuring of the two largest banks in Cyprus through "bail in", safeguarding deposits below €100.000.

Since March 2013, Troika performed several reviews of the Cyprus' economic program with very positive outcomes which resulted in the disbursement of all scheduled tranches of financial assistance to Cyprus.

Despite the adverse external economic environment in several European and international economies, the Cyprus economy shows signs of stabilization, evident by the upgrade of the credit rating and the future prospects of the Republic of Cyprus by all major international credit rating agencies. This assisted largely the efforts of the Republic of Cyprus to raise significant capital from international financial markets in the past few months. In addition, the Cypriot banks have been recapitalized and have reorganized their operations, leading to the full abolishment of all restrictive measures on deposits and transactions imposed during 2013.

However, the uncertain economic conditions in Cyprus, the unavailability of financing and the high percentage of non performing bank loans in combination with the high unemployment rates, could potentially affect:

- The ability of the Company to obtain new borrowings or refinance its existing borrowings at terms and conditions similar to those applied to earlier transactions
- The ability of the Company to develop its immovable property
- The fair value of the Company's real estate assets
- The cash flow forecasts of the Company's management in relation to the realization of the Company's real estate assets.

The Company's management is unable to predict all developments which could have an impact on the Cyprus economy and consequently, what effect, if any, they could have on the future financial performance, cash flows and financial position of the Company

On the basis of the evaluation performed, the Company's management has concluded that no further provisions or impairment charges are necessary other than those already recognised in the financial statements. The Company's management believes that it is taking all the necessary measures to maintain the viability of the Company and the smooth conduct of its operations in the current business and economic environment.
